

CLEVELAND TECHNICAL SOCIETIES COUNCIL

Scholarships

The CTSC has increased its scholarship awards to \$1,500 for the top STEM students from throughout Northeast Ohio. Applicants for these scholarships have been selected by their teachers as the best and brightest at their respective schools.

Because the scholarships are funded by outside sponsors and not CTSC, the number of \$1,500 scholarships awarded each year varies. An independent committee of CTSC representatives evaluates the scholarship applications and selects recipients. All recipients are invited to attend that year's Scholarship and Awards banquet to accept their awards.

Only CTSC Honor Juniors are eligible to apply for these scholarships. Honor Juniors are notified in January of their senior year with application information.
